## ACKNOWLEDGEMENTS

My sincerest thanks are extended to the following, without whose assistance this study would not have been completed:

John Fraser, Max Kemp and Dr. Stuart Sykes, my supervisors, for the time spent in guiding this research and providing valuable insights in the area of learning difficulties.

Dr. Peter O'Connor, for his valuable comments on the final draft of the Field Study.

Nanci Burr, for her excellent work in typing this manuscript.

Hazel Barr, Anne Hamer, Ivan Drury, principals, teachers, parents and children in Canberra, Australian Capital Territory, who cooperated and made it possible to collect the data.

My husband, Harry for his assistance with proof reading and for his encouragement in the completion of this study.

My children, Elisabeth and Matthew, for the insights they provided into language development.
