

Reza Mortazavi  
Senior Lecturer  
Pharmacy

## Biography

I have a multi-disciplinary professional and academic background in various areas of Diagnostic Pathology (Clinical Laboratory Science) which are related to thrombosis and haemostasis. I have attained experience in biomedical sciences through teaching and supervising at universities, running professional workshops, managing pathology labs including but not limited to specialised and sub-specialised hospital labs, taking part in disease screening programs (diabetes and kidney disease), and raising public awareness about thrombosis. From a research perspective, my larger research area includes studying cardiovascular disease risk factors and prediction models in chronic disease such as cancer.

## Qualifications

Graduate Certificate in Learning and Teaching in Higher Education, Charles Sturt University

2011 → 2013

Award Date: 20 May 2013

PhD, Evaluation of Serum Lipids and Lipoproteins in Diabetic Retinopathy, Tabriz University of Medical Sciences

13 Feb 1988 → 16 Apr 1992

Award Date: 16 Apr 1992

## Employment

### Senior Lecturer

Pharmacy

Faculty of Health

16 Jul 2022 → present

### Research Affiliate

ANZAC Research Institute

Australia

1 Feb 2021 → present

### Editorial Board Member

Multidisciplinary Digital Publishing Institute

Switzerland
