Biography

Tracy Logan is a Senior Lecturer in Education at the University of Canberra. Her research focuses on mathematics education and in particular, how students encode and decode mathematical information. More recently, her work aims to better understand how students' spatial reasoning is critical for success in mathematics (particularly in digital environments) and how this skill can be improved through teaching.

Qualifications

PhD, Sustaining mathematics education research: A secondary data analysis framework
1 Jan 2014 → 1 Jul 2019
Award Date: 1 Aug 2019

Master, Master of Education (Research), Queensland University of Technology
Award Date: 1 Apr 2010

Bachelor, Bachelor of Education (Primary), Charles Sturt University
Award Date: 1 Apr 2006

Research output

Spatial visualization and measurement of area: A case study in spatialized mathematics instruction
